Allowable Subject Matter

Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or render obvious record does not disclose the relationship of alpha value of the steamed and unsteamed catalyst between its role in the performance of the catalyst. As shown in the specification, namely examples and figures, the change of alpha value of the catalyst before and after steaming must be selected as found by applicants so that the yield of the isomerate can be increased.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuan D. Dang whose telephone number is 571-272-1445. The examiner can normally be reached on Mon-Thu.
